ICS 300: Intermediate Incident Command System for Expanding Incidents (2019)

Course Plan

Course Details

Description:	This course provides training for personnel who require advanced application of the Incident Command System (ICS). This course expands upon information covered in the ICS 100 and ICS 200 courses.
Designed For:	Individuals who may assume a supervisory role in incidents. Note: During a Type 3 incident, some or all of the Command and General Staff positions may be activated, as well as Division/Group Supervisor and/or Unit Leader level positions. These incidents may extend into multiple operational periods.
Authority:	Federal Emergency Management Agency - Emergency Management Institute
Prerequisites:	IS0100, Introduction to the Incident Command System; IS0200, Basic Incident Command System for Initial Response; IS0700, National Incident Management System, An Introduction; and IS0800, National Response Framework, An Introduction .
Standard:	N/A
Hours:	21.0 hours
Maximum Class Size:	40
Instructor Level:	Primary instructor
Instructor/Student Ratio:	1:40 (Note: FEMA recommends at least two instructors)
Restrictions:	None.
SFT Designation:	FSTEP
Note:	For FEMA issued course completion diplomas, the course must be registered through California Governor's Office of Emergency Services (Cal OES).

Required Resources

Instructor Resources

The following instructor resources are required:
- Instructor Guide
- Electronic files of all Unit Visual presentations
- Pretest and final exam

Student Resources

To participate in this course, students need:
- Student Manual (electronic preferred)
- Student Handouts

Facilities, Equipment, and Personnel

The following facilities, equipment, or personnel are required to deliver this course:

Facilities

- Standard classroom equipped for 24 students
- Whiteboards or easel pads with appropriate writing implements
- Projector/TV with appropriate laptop connections
- Wifi/Internet access

Time Table

Segment			Unit Total
Unit 1: Course Introduction			1.5
Unit 2: ICS Fundamentals Review			3.0
Unit 3: Initial Actions for Unified Command			2.25
Unit 4: Implementing an Operational Planning Process			2.25
Unit 5: Planning Process, IAP, and Operations Brief			5.0
Unit 6: Incident Resource Management			3.0
Unit 7: Demobilization, Transfer of Command, Closeout, and Transition to Recovery			2.0
Unit 8: Course Summary			2.0
Course Totals			**21.0**

Time Table Key

1. The Time Table documents the amount of time required to deliver the content included in the course plan.

2. The Course Totals reflect time for lunch (1 hour) or breaks (10 minutes per each 50 minutes of instruction or assessment).

3. Application (activities, skills exercises, and formative testing) time will vary depending on the number of students enrolled and the acquired structure selected for training. The Application time documented is based on the maximum class size identified in the Course Details section.

4. Summative Assessments are determined and scheduled by the authority having jurisdiction. These are not the written or psychomotor State Fire Training certification exams. These are in-class assessments to evaluate student progress and calculate course grades.

Objectives

Course Objectives
1. Describe how the National Incident Management System (NIMS) Command and Management component supports the management of expanding incidents.
2. Describe the incident/event management process for supervisors and expanding incidents as prescribed by the Incident Command System (ICS).
3. Implement the incident management process on a simulated Type 3 incident.
4. Develop an Incident Action Plan for a simulated incident.
